

Saloni Jaiswal

Bangalore, India | salonijaiswal622@gmail.com | 8295150463

Professional Summary

Proficient UI Developer with 4+ years of expertise in React and Microfrontend architectures, optimizing performance and user experience. Improved engagement by **40%** and achieved **70% efficiency gains** through advanced rendering and state management strategies.

Work Experience

Papaya Global | Software Developer

Mar 2024 - May 2025

- Developed an Employee Invoice Management System using **React JS, Redux, React Query**, and **Microfrontend Architecture**, reducing user touchpoints by **40%** and enhancing overall experience.
- Automated end-to-end testing using **Playwright**, reducing manual effort by **70%** (from 7 days to 2 days).
- Integrated a cross-service RabbitMQ messaging system, improving onboarding status tracking efficiency by **50%** and enhancing system flexibility and cross-team communication.

Lets Transport | UI Engineer

Sep 2020 - Dec 2023

- Spearheaded the development of an internal dashboard using **React JS** and **Redux Toolkit** to provide real-time business metrics, reducing business decision turnaround time by over **50%**.
- Optimized field operations booking UI using **React, Redux, and WebSocket**, reducing user clicks by **50%** and enhancing real-time updates.
- Seamlessly migrated the truck driver core app to **React Native Paper** and **Mobily Stack**, ensuring zero downtime with themed components for consistency and maintainability.
- Architected and implemented a streamlined vehicle registration process, boosting vehicle utilization from **45% to 85%** and optimizing fleet efficiency.
- Engineered and deployed a cutting-edge vehicle ownership transfer system, slashing on-call efforts by **85%**, accelerating processing time from 2 days to under 30 minutes and enhancing operational efficiency.

Technical Skills

Frontend: JavaScript (ES6+), TypeScript, React (Redux, Router, Query), Microfrontend Architecture, GraphQL, Next.js, MobX, React Native, HTML, CSS, Material UI, System Design.

Backend: Java (Spring Boot, Mockito), RabbitMQ, RESTful APIs, Object Oriented Programming.

Testing: Jest, Playwright, Coralogix. **CI/CD:** Jenkins, Build Piper.

Tools: Git, Jira, Confluence, VS Code.

Soft Skills

Leadership, Mentorship, Communication, Stakeholder Management, Problem-Solving, Cross-Team Collaboration, Agile Development

Education

National Institute of Technology, Kurukshetra
Bachelor of Technology in Information Technology

2020 | Kurukshetra, India
